1199 Whitney Avenue Suite 523
Hamden, CT 06517

Dear Dr. Araia:

Sacred Geometry is a description of the use of fingerprint classifications in a geometric location. The purpose of the application is to analyze the position of a given code on a chart which is a display of an entire sequence of fingerprint codes. Through this method, with the understanding that mathematics is an exact science, the interpretation thereof allows us to examine the compatibility of groups of individuals who maintain a given geometric display, the ability to work together in harmony.

This concept asserts its foundation on the dimensions of the perimeter of the Great Pyramid Khufu in Giza Egypt, which reflects time and space in its construction.

Sincerely,

Andres J. Washington
